Medium: <https://learner-subodh.medium.com/>

I'm a young, motivated & smart working Computer Engineer passionate about cutting-edge technology and solving real world business problems. Eager to convert data into business achievements. I strongly believe that Data, when glued with Mathematics and best suitable Machine Learning & Deep Learning algorithms possess the key to solve even the hardest of the problems in quick time. Know more at <https://learner-subodh.github.io/>.

SKILLS

Statistics, Machine Learning, Deep Learning, Data Analytics, Python, C++, SQL, Excel, Tableau, Computer Vision, Image Processing, Natural Language Processing, Recommendation Systems, TensorFlow, Keras, PyTorch, Streamlit.

EDUCATION

- o **B.E. Computer Engineering**
Savitribai Phule Pune University
07/2015 – 06/2019 Pune, India
 - ✓ CGPA:
9.02 – In the Top 3% of the Computer Engineering department.

WORK EXPERIENCE

- o **Analytics Automation Associate, R&D**
Aptify Software Development Solutions
11/2019 – Present Pune, India
 - ✓ Tools/Technologies:
SQL, Object Oriented Programming, Excel, C#, Python, Data Analytics, Data Visualization, NumPy, Pandas, Tableau, Customer Segmentation, dotCover, Product Coverage, Selenium, Recommendations System, Streamlit, GitHub, Specflow, Visual Studio, Microsoft Azure, SAFe Agile methodology.
- o **Software Developer, R&D**
Aptify Software Development Solutions
08/2019 – 11/2019 Pune, India
 - ✓ Tools/Technologies:
Java, SQL, Object Oriented Programming, GitHub, Spring, Maven, HTML, CSS, SAFe Agile methodology.

PERSONAL PROJECTS / CASE STUDIES

- o **WSDM – KKBox's Music Recommendation Challenge (Recommendation System)**
12/2020 – 01/2021
 - ✓ Case Study of a Music Recommendation Challenge held in one of the Kaggle Competitions. Achieved a Kaggle Score which placed me in the top 0.7% for this challenge.
 - ✓ **Source:** <https://www.kaggle.com/c/kkbox-music-recommendation-challenge>
 - ✓ **Blog:** <https://medium.com/swlh/kkbox-music-recommendation-challenge-3cfe609773a0>

- ✓ **Web App** for the Overview of EDA: <https://share.streamlit.io/learner-subodh/streamlit-example/kkbox.py>
- ✓ **GitHub**: <https://github.com/learner-subodh/Maschinelles-Lernen-und-Datenwissenschaft/tree/master/KKBox%20Music%20Recommendation%20Challenge>
- **Facial Expressions Recognition Challenge (Computer Vision)**
05/2021 – 05/2021
 - ✓ Case study for recognizing facial expressions in given input images.
 - ✓ My deep learning model beats the 1st place solution in the Kaggle competition: <https://www.kaggle.com/c/facial-keypoints-detector/overview> & the 2nd place solution in the Kaggle competition: <https://www.kaggle.com/c/challenges-in-representation-learning-facial-expression-recognition-challenge/overview> on both Public & Private Leaderboards.
 - ✓ Almost as good as the **State-of-The-Art** solutions for Facial Expressions Recognition.
 - ✓ **Dataset**: <https://www.kaggle.com/deadskull7/fer2013>
 - ✓ **Video Demo**: https://www.youtube.com/watch?v=Tx-iHP9KY5w&ab_channel=SubodhLonkar
 - ✓ **GitHub**: <https://github.com/learner-subodh/streamlit-sharing>
- **Classification of Images of Food Items (Computer Vision)**
02/2021 – 02/2021
 - ✓ Classified images of various food items using 3 deep learning models, namely, MobileNetv2(light), Resnet50(medium) & Inceptionv3(heavy). Dataset used is the Food-101 dataset.
 - ✓ All 3 models delivered an accuracy of over 90% on the test data.
 - ✓ **Video Demo**: <https://www.youtube.com/watch?v=5aIQyPT33Aw&t=63s>
 - ✓ **GitHub**: <https://github.com/learner-subodh/Maschinelles-Lernen-und-Datenwissenschaft/tree/master/Image%20Classification%20using%20Food-101%20Dataset>
- **Quora Question Pairs Similarity Problem (Natural Language Processing)**
08/2020 – 08/2020
 - ✓ Case study for identifying which questions asked on Quora are duplicates of questions that have already been asked. That is, predicting whether a pair of questions are duplicates or not.
 - ✓ **Dataset**: <https://www.kaggle.com/c/quora-question-pairs>
 - ✓ **GitHub**: <https://github.com/learner-subodh/Maschinelles-Lernen-und-Datenwissenschaft/tree/master/Case%20Study:%20Quora%20Question%20Pair%20Similarity>

BLOGS & PUBLICATIONS

- **The Startup**: Training an MLP From Scratch Using Backpropagation for Solving Mathematical Equations- <https://medium.com/swlh/training-an-mlp-from-scratch-using-backpropagation-for-solving-mathematical-equations-91b523c24748>
- **The Startup**: WSDM – KKBox's Music Recommendation Challenge: <https://medium.com/swlh/kkbox-music-recommendation-challenge-3cfe609773a0>
- **Analytics Vidhya**: Dimensionality Reduction by Stochastic Gradient Descent: <https://medium.com/analytics-vidhya/dimensionality-reduction-by-stochastic-gradient-descent-f617ebde3c1b>

ACHIEVEMENTS

- GATE CS/IT 2019 Qualified.
- Ranked 6th in the Indian Engineering Olympiad 2019.
- Received Spot Awards in Aptify, a certificate of appreciation for excelling in assigned tasks & responsibilities.

COURSES & CERTIFICATIONS

- CS229 Andrew Ng: Machine learning
- IIT Bombay Spoken Tutorial: C, C++
- Python 101 for Data Science, IBM
- Participated in Guinness World Record Event for Building Face Recognition Application conducted by GUVI Geek Networks, IIT Madras Research Park.

HOBBIES

- Prototyping ideas & implementing research papers.
- Contributing to open-source community by publishing technical blogs.
- Publishing research papers.
- Participating in technical webinars/conferences focusing areas from computer science & machine learning.
- Solving challenging problems from Kaggle & HackerRank.
- Learning new tools/technologies followed by its implementation.
